WELCOME

Romance Tourism is very significant for Mexican destinations, because of the positive impact it has on the local economy, integrating the entire network of resources that makes this industry possible. Currently, Romance Tourism is an efficient industry to accelerate the economical growth of many communities in our country, help modernize the infrastructure, boost the economy, promote our cultural resources, balance the social equality and support sustainability.

This segment covers not only destination weddings, but also proposals, bachelor and bachelorette parties, honeymoons, wedding anniversaries, vows renewals, last trip before the baby's birth (Babymoon), second nuptials, travel with the family (Family-Moon) and a new niche that is growing exponentially with the current epidemiological and economic conditions, which are elopement weddings.

In Mexico, year after year the network of resources throughout our destinations are specializing in this segment, holding a significant number of destination weddings annually. While the favorite setting for couples has been our beautiful beaches, the new generations are being attracted to colonial and adventure destinations.

Therefore, the Mexican Tourism Board - SECTUR, through the General Directorate of Innovation for Tourism, is promoting Romance Tourism, focusing not only on destination weddings, but also seeking the integration of other tourism products and experiences in and around that special moment, allowing the incorporation of the local population, which contributes to raising their quality of life.

This catalog is the result of a coordinated effort between the Destination Wedding Specialist Association - DWSA, the Ministry of Tourism and Culture of Veracruz, all the specialized suppliers of this tourist destination and the Mexican Tourism Board. Together we carried out virtual workshops to create innovative tourism services aimed to the Romance Tourism, with an individual value that gives them a distinctive character and, at the same time, a unique identity.

In this way, local vendors and communities represented by artisans, traditional cooks, agribusinesses and cooperatives have been incorporated, thus seeking social development with a gender and inclusion perspective.

It is important to mention that this work responds to the new tourist policy that seeks to encourage the benefits of this activity to showcase the localities, and reach more sectors of the population, seeking a balanced development of the country's regions.

We hope that this document is not only useful but interesting, and that it contributes to your experience of living and enjoying Mexico.

THE WEDDING WRITING YOUR OWN STORY

THE CEREMONY

There a variety of imposing and wonderful constructions dating from the 16th to the 19th centuries! How would you like to have your civil or spiritual ceremony in the hall of the Francisco X. Clavijero Theater located in the Historic downtown of the City of Veracruz, under its surprising giant chandelier, or even between its curtains on the stage?

The Francisco X. Clavijero Theater was inaugurated in 1902. Its façade is neoclassical in style although it reveals certain touches of French influence, its gigantic and fine mirrors and marble floors give it a certain aristocratic air, making it one of the scenic spaces with greatest tradition in the city.

THE CEREMONY

Do you prefer outdoors? An intimate ceremony in the center of Casa de Hernan Cortes in the city of La Antigua is an excellent option.

In this Sevillian-style construction there is an almost intact waterwheel from which the water was obtained, a large part of the rooms that surround the central patio are still standing and it is impressive to see the walls that mix bricks with coral stones, the rustic clay floors are maintained and there is even a bread oven that is kept in perfect condition.

There are three rooms that protect the roots of the lovers, the most photographed and the greatest attraction of the place. So it will be impressive for your guests to see in the so-called Cortes room, how the roots of the trees grow in to the place. It seems they are telling the history of the conquest, of everything that this house lived through and of the evolution of Mexico. A whole poem that will complement your love story!

BETLEMITA FORMER CONVENT

THE RECEPTION

It was the first military hospital in Mexico and in all of America; It was built with sea stone within the walls that surrounded the city and it was inaugurated in December 1764 by the name of San Carlos hospital. With a neoclassical military architectural style built with mask stone, it has been considered one of the most important points of concentration and attention for civilians, sea and land troops who were injured during the fighting that took place in the heroic defenses of the port.

JULIO S. MONTERO PEDESTRIAN STREET

It was adapted for exclusive pedestrian use and rehabilitated with paving stone.
